Summary

Senior backend engineer with 6 years of experience building Python/Django services on AWS, with a focus on API design and database performance.

Skills

Python, Django, PostgreSQL, AWS (EC2, RDS, S3), Docker, GraphQL, Celery, CI/CD

Experience

Senior Backend Engineer -- Harborview Software (2021 - Present)

- Designed and shipped a GraphQL API layer adopted by 3 internal product teams
- Optimized slow PostgreSQL queries across core services, reducing average query time by 45%
- Set up Celery-based background job processing for report generation at scale

Backend Engineer -- Fieldstone Insurance (2018 - 2021)

- Built Django REST APIs for a claims-processing platform handling 50k+ claims monthly
- Containerized the application stack with Docker, standardizing local development

Education

B.S. Computer Science -- University of Illinois Urbana-Champaign (2018)
