Summary

Senior backend engineer with 7 years of experience building and scaling Node.js and TypeScript services on AWS. Led a full API redesign that improved reliability for a 500k-user platform.

Skills

Node.js, TypeScript, PostgreSQL, AWS (Lambda, ECS, RDS), Docker, Kubernetes, Redis, GraphQL, REST API design

Experience

Senior Backend Engineer -- Bramble Health (2020 - Present)

- Led the redesign of the core patient-scheduling API, reducing average response time from 800ms to 120ms
- Introduced GraphQL as a unified data layer across 6 internal services
- Set up Kubernetes-based deployments and CI/CD pipelines, cutting deploy time from 45 to 6 minutes

Backend Engineer -- Vantage Retail (2017 - 2020)

- Built and maintained REST APIs powering the company's e-commerce checkout flow
- Implemented Redis caching that reduced database load by 35% during peak traffic

Education

B.S. Computer Engineering -- University of Illinois at Chicago (2016)
