Summary

Backend engineer with 6 years of experience building Node.js services on Google Cloud Platform, with strong PostgreSQL and Docker experience.

Skills

Node.js, PostgreSQL, Google Cloud Platform (Compute Engine, Cloud SQL), Docker, REST APIs, CI/CD

Experience

Backend Engineer -- Pinewood Data (2020 - Present)

- Built and maintained Node.js services deployed on GCP Compute Engine with Docker
- Owned PostgreSQL schema design for a service processing 1M+ records daily
- Set up CI/CD pipelines using Cloud Build

Software Engineer -- Pinewood Data (2018 - 2020)

- Built internal APIs and contributed to a shared component library

Education

B.S. Computer Science -- University of Washington (2018)
